## About SIDVI Foundation

SIDVI Foundation is a Versatile Publishing and Marketing Company focused on Educational & Research Services. The increasing demand for Technology in the modern World provides us to publish books with the latest updates for the readers to enhance Technological Advancements as well as customize books, according to the reader's category. The Editors in Chief are a well-renowned personalities with rich experience across the Globe both in Academics and Industrial Expertise.

SIDVI aims to promote high-quality of Research Publications. Hence we select a board committee under the name of SSRD with subject experts and distinguished scholars to reach the emerging competency of modern methodologies and approaches.

We cover a wide range of Science & Technology, Engineering & Technology and Social Sciences topics. We give preference to different disciplines: Nano-Technology, Aquaculture Material Science, General Science, Engineering Sciences, Environment and Earth, Computer Science, Agricultural Science, Medical Science and Public Health, Energy and Power, Crop Sciences, Food Technology, Plant Genetics, Agricultural Technology, Horticulture and Forestry, Economics and more. In terms of subjects, we do not restrict disciplines.

## About Globethics

Globethics domiciled in Geneva, Switzerland, Globethics is an international organization committed to furthering its vision of Ethics in higher education. The organization reaches out to teachers, students and other stakeholders to support the integration of relevant and contextual standards and structures to promote a deeper understanding of ethics in their context. Through training programmes, research, collaborative projects and introduction to best practices, Globethics ensures qualitative differences in the approach to ethics and aims to achieve the United Nations Sustainable Development Goals through its endeavours. For free access to Globethics online library and to receive regular newsletter with news and updates from ethics professionals in the network.

## About World Environment Day

World Environment Day (WED) is celebrated annually on 5 June and encourages awareness and action for the protection of the environment. It is supported by many non-governmental organizations, businesses, government entities, and represents the primary United Nations outreach day supporting the environment.

World Environment Day was established in 1972 by the United Nations during the Stockholm Conference on the Human Environment. The event was a result of discussions on the impact of human interactions on our environment.

First held in 1973, it has been a platform for raising awareness on environmental issues as marine pollution, overpopulation, global warming, sustainable development and wildlife crime. World Environment Day is a global platform for public outreach, with participation from over 143 countries annually.

## About the Conference

The main moto behind this conference is bridging the science policy practice gaps and deriving actionable and policy-oriented measures that can potentially transform societies. In the dialogue sessions, panelists drawn from academia, parliamentary forums, development actors and practitioners as well as local community members will be invited to discuss key issues in the global development agenda. This Conference is an academic and research activity, it is a movement that has created a platform for dialogues and deliberations at a local, national as well as global level. It aspires towards creating a value based, humane and sustainable future for business, academia, Government, civil society groups, NGOs and thinkers and practitioners covering all disciplines of management and beyond to include all other domains of pursuit of knowledge and practice. It dreams of leaving behind for posterity ethically driven business organizations, a sane and happy society, and a sustainable planet earth to be created by visionary, conscientious and inspired leaders of thought and action from enlightened Academic and Research Institutions.

## Goals and Objectives of the Conference

- ★ Promote Healthy and Abundant Lives for All People.
- ★ Provide Workplace Environments that Enable All People to Participate Actively.
- ★ Help to Mitigate and Adapt to Climate Change.
- ★ Invest to Help Build a Sustainable Society.

## The Purpose of this International Conference

Currently, multidisciplinary research has become the most viable and efficient way to solve the problem. In this era of rapidly changing society, many kinds of socio-economic problems, related to other disciplines such as politics, anthropology, psychology, have arisen which require a holistic approach to find their solution.

When we speak of a multidisciplinary, transdisciplinary or interdisciplinary research team, we imply collaboration between people from different disciplines. Thus, the concept of a multidisciplinary research team can be considered as a subset of the concept of collaborative research.

### Benefits of Conference

This will be the facilitated by sharing of the knowledge and techniques Among Rechers and Academia.

### Access To Expertise

Sharing of tasks, pooling of specialised teams to complement each other while carrying out a project that could not be carried out by a single individual.

### Formal Division of Labour

Collaboration is even more intriguing when the knowledge is implied and isn't already published.

### Transfer of Knowledge & Skills

Collaboration leads to a mixing of ideas and a confrontation of points of view which should in turn stimulate creativity.

### Stimulates Out-of-the-Box Thinking

Researchers increase their respective network of contacts in the scientific community through collaboration.

### Collaboration Reduces the Isolation of Researchers

This will be made possible through dissemination actions on both sides of each employee.
